Digitide Solutions Limited commences trading on BSE and NSE, marking a new chapter as an independent listed company

Mumbai, June 11, 2025: Digitide Solutions Limited (“Digitide”) BSE Scrip Code – 544413 , NSE Symbol- DIGITIDE , a leading provider of AI-driven digital transformation and business process management (BPM) services, including BPaaS, is listed today on BSE and the NSE, marking a significant milestone in its journey as an independently traded entity.

The listing follows the successful demerger of Digitide from Quess Corp Limited under a Scheme of Arrangement approved earlier this year. Digitide is poised to leverage its strengths in BPM, Insurtech, and HR Outsourcing solutions to drive growth in both domestic and international markets.

Speaking on the occasion, Mr. Ajit Isaac, Founder and Non-Executive Chairman, Digitide said, *“The listing of Digitide is a landmark moment in the Quess journey. The creation of an independent Digitide unlocks new potential, offering sharper focus, greater agility, and a renewed sense of purpose. With its strong leadership, capabilities, and commitment to innovation, Digitide is well-positioned to chart its own growth story and create long-term value for its stakeholders. I am proud of this milestone and confident that Digitide’s best days lie ahead.”*

Mr. Gurmeet Chahal, Chief Executive Officer, Digitide, added, *“Today marks the beginning of a new chapter for Digitide. As an independent, publicly listed company, we have the opportunity to sharpen our strategy, strengthen our customer relationships, and expand into new markets. With an AI-first mindset and deep domain expertise, Digitide is committed to delivering innovative solutions that drive business efficiency and growth for our clients. We are excited about the journey ahead and grateful to all our employees, customers, and partners for their trust and support.”*

With operations across 40+ global locations, Digitide delivers a comprehensive suite of services spanning AI, data and analytics, technology and digital solutions, and BPM. The company’s differentiated platforms and global delivery model position it to capitalise on the rising demand for digital transformation and outsourcing services worldwide.
